

Black Armour® Cleaning & Maintenance Guide

Routine Cleaning & Maintenance:

- Sweep and/or vacuum the bed mat to remove all loose dirt and debris.
- Spray mat with a garden hose or pressure washer.
- If needed, damp mop or scrub the bed mat with a PH neutral cleaner diluted with water.

Floor Finishing:

- A finish may alter the surface texture and characteristics of the mat.

Caution:

- Black Armour® Bed Mats must not be cleaned with any petroleum-based cleaners. If any petroleum product is spilled on the matting, it should be removed immediately to avoid damage to the mat and voiding of warranty.
